Minds On Physics Internet Modules
Keeping Track of Success Codes

Upon completion of an assignment, the Minds On Physics program creates an encrypted set of characters known as a Success Code. The code is generated using your teacher code, your student ID number, and a few other *invisible* parameters. The code can be used to verify that a student has successfully completed the assignment. Because the code is based upon a teacher code and a student ID, it is important that such information is accurate. Success codes have to be written down by the student in order to receive credit; there is no database to keep track of them. The form below can be used to assist in recording Success Codes as you progress through your set of assignments. Record all codes accurately. Turn the codes in by the due date (to be announced by teacher).

Teacher Code: _____   **ID#:** _____   **Name:** _____

Kinematic Graphing Module

Assignment	Start Code	Gold Medal Success Code*	Silver Medal Success Code*	Due Date
KG1		g ___ ___ - ___ ___ - ___ ___ ___	s ___ ___ - ___ ___ - ___ ___ ___

KG10		g ___ ___ - ___ ___ - ___ ___ ___	s ___ ___ - ___ ___ - ___ ___ ___	
KG11		g ___ ___ - ___ ___ - ___ ___ ___	s ___ ___ - ___ ___ - ___ ___ ___	

* Always Go for the Gold! It's worth more credit. The Silver Medal earns a student partial credit for near completion of an assignment on several occasions. The credit value of a Silver Medal success code is less than that of a Gold Medal success code.
