

Minds On Physics Internet Modules Keeping Track of Success Codes

Upon completion of an assignment, the Minds On Physics program creates an encrypted set of characters known as a Success Code. The code is generated using your teacher code, your student ID number, and a few other *invisible* parameters. The code can be used to verify that a student has successfully completed the assignment. Because the code is based upon a teacher code and a student ID, it is important that such information is accurate. Success codes have to be written down by the student in order to receive credit; there is no database to keep track of them. The form below can be used to assist in recording Success Codes as you progress through your set of assignments. Record all codes accurately. Turn the codes in by the due date (to be announced by teacher).

Teacher Code: _____

ID#: _____

Name: _____

Forces in Two Dimensions Module

Assignment	Start Code	Gold Medal Success Code*	Silver Medal Success Code*	Due Date
2D1		g _____ - _____ - _____	s _____ - _____ - _____	
2D2		g _____ - _____ - _____	s _____ - _____ - _____	
2D3		g _____ - _____ - _____	s _____ - _____ - _____	
2D4		g _____ - _____ - _____	s _____ - _____ - _____	
2D5		g _____ - _____ - _____	s _____ - _____ - _____	
2D6		g _____ - _____ - _____	s _____ - _____ - _____	

* Always Go for the Gold! It's worth more credit. The Silver Medal earns a student partial credit for near completion of an assignment on several occasions. The credit value of a Silver Medal success code is less than that of a Gold Medal success code.
