

Physics Classroom Accessibility Conformance Report

Revised Section 508 Edition

(Based on VPAT® Version 2.5Rev)

Name of Product/Version: Physics Classroom

Report Date: February 1st, 2026

Product Description: Physics Classroom provides online textbooks, hundreds of activities, teacher resources and more for learning Physics and Chemistry. It also has our own tracking platform so teachers can assign, modify, track and grade student progress on our activities.

Contact Information: support@physicsclassroom.com

Evaluation Methods Used: WAVE AIM web analyzer along with Chromium built in Web dev Lighthouse accessibility checker. Occasional consultation with friend who is blind.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	(Yes)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

Notes:

- The Remarks and Explanations reference the PC-Accessibility.pdf which contains a detailed explanation of the accessibility challenges and our plans for remediation. Please review that document to get details on what we have done so far, what we plan to do, and our commitment to Accessibility.

WCAG 2.x Report (with Revised Section 508 Considerations)

Table Information for VPAT® Readers

For each of the standards, the criteria are listed by chapter in a table. The structures of the tables are:

- The first column contains the criteria being evaluated, the second column describes the level of conformance of the product regarding the criteria and the third column contains any additional remarks and explanations regarding the product.
- When sections of criteria do not apply, or are deemed by the customer as not applicable, the section is noted as such and the rest of that table may be removed for that section.
- When multiple standards are being recorded in this document, the duplicative sections are noted and responded to only one time. The duplicate entry will note the cross reference to the data.

Tables 1 and 2 also document conformance with Revised Section 508:

- Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing
- Chapter 6 – 602.3 Electronic Support Documentation

Since Physics Classroom offers a variety of types of learning tools, we have designated the terms as such:

Web: Will be for general web content (such as Tutorials).

Electronic Docs: Will be for PDF content (such as our Think Sheets or Student Activity Sheets).

Software: Will be for our Html5 Interactives that students use for learning.

Authoring Tool: Will be for our Task Tracker Administrative UI that teachers use to assign, modify, and manage their classes.

While the 508 Splitting of these was present for Level A only, I’ve added them to Level AA for Clarity.

Table 1: Success Criteria, Level A

Notes:

Web: Will be for general web content (such as Tutorials).

Electronic Docs: Will be for PDF content (such as our Think Sheets or Student Activity Sheets).

Software: Will be for our Html5 Interactives.

Authoring Tool: Will be for our Task Tracker Administrative UI

Our site navigations are definitely tab-able. (See PC-Accessibility - Tutorials)</p> <p>Electronic Docs:</p> <p>Software: CalcPad can be usable to go through the problems, however our interactives still require rebuilding to be keyboard accessible. (See PC-Accessibility - CalcPad) (See PC-Accessibility - Interactives)</p> <p>Authoring Tool: Most of our Task Tracker UI works with tabbing properly, however the CalcPad editing UI is probably cumbersome to use with a keyboard. <p>2.4.4 Link Purpose (In Context) (Level A)</p> <p>Also applies to:</p> <p>Revised Section 508</p> <ul style="list-style-type: none"> 501 (Web)(Software) 504.2 (Authoring Tool) <p>602.3 (Support Docs)</p>	<p>Web: Supports (Mostly)</p> <p>Electronic Docs: Not Supported</p> <p>Software: Not Supported</p> <p>Authoring Tool: Partially Supported</p>	<p>Web: We have special logic for any link tag that detects things like email links, open in new window, phone links, anchor links, or no link (role=button) and adds screen reader only additional text with the link. This will be applied dynamically to the Tutorial content once migrated as well. (See PC-Accessibility - Tutorials)</p>

These will be address as they eventually get migrated to a new platform. (See PC-Accessibility - Interactives)</p> <p>Authoring Tool: We don't have images except the CalcPad editor, where they can choose the image (and hopefully is high contrast). We will eventually go through our problems and check for any accessibility issues as we migrate. (See PC-Accessibility - CalcPad)</p>
